2006 Annual Report

Thanks to our sponsors, advertisers, community participants, and those in need for making 4People the number one grassroots online source of resources. Thanks to our sponsors for promoting the only online tool to help local agencies, groups, and faith based organizations coordinate services and to collaborate to help those in need.

Our number one goal this year was to make it easier and faster for people to find the resources they needed to make their lives better. The addition of county lists of resources and printable service lists for each county in Washington State has achieved this goal.

Our number two goal was to implement the online Case Management system, protecting individuals privacy, and at the same time maximizing the services available to help our families succeed. We trained 20 Health and Human Services and Faith Based Organizations to use 4People.

Our number three goal was to obtain funding to promote 4People, and implement a fee for service for the Case Management program to insure sustainability of 4People. We received funding from Verizon Foundation, Battelle, and the Compassion Grant to develop and implement a marketing plan to increase the usage of 4People.

4People Cash Budget and Expenses 2006

Expenses		Revenues	
Services	\$11,995.00	Fee for Services	\$11,525.00
